

The National Interagency UAS Training Program 2021/2022 Schedule

- UAS Flight School for Incident Operations:** Two-week flight school which incorporates *A-450 Basic Remote Pilot* and *S-373 UAS Incident Operations*. Pilot candidates will learn to operate aircraft, capture imagery with agency approved UAS, communicate, deconflict, and integrate into fire-traffic-area airspace, and engage in beyond visual line of sight mission profiles. Graduates will receive an agency UAS Remote Pilot Certificate (card) and become an NWCG UAS Remote Pilot (UASP) trainee.
- UAS Flight School for Natural Resource Management:** Two-week flight school which incorporates *A-450 Basic Remote Pilot* and *UAS Mapping*. Pilot candidates will learn to operate aircraft, capture imagery with agency approved UAS, plan and implement automated flight mission sets, and process low complexity data products. Graduates will receive an agency UAS Remote Pilot Certificate (card).
