

The National Interagency UAS Training Program 2023/2024 Schedule

- UAS Flight School for Incident Operations:** Two-week flight school which incorporates *A-450 Basic Remote Pilot* and *S-373 UAS Incident Operations*. Pilot candidates will learn to operate aircraft, capture imagery with agency approved UAS, communicate, deconflict, and integrate into fire-traffic-area airspace, and engage in beyond visual line of sight mission profiles. Graduates have the opportunity to earn an agency UAS Remote Pilot Certificate (card) and meet NWCG standards to open a UAS Remote Pilot (UASP) trainee taskbook.
- UAS Flight School for Natural Resource Management:** Two-week flight school which incorporates *A-450 Basic Remote Pilot* and *UAS Mapping*. Pilot candidates will learn to operate aircraft, capture imagery with agency approved UAS, plan and implement automated flight mission sets, and process low complexity data products. Graduates have the opportunity to earn an agency UAS Remote Pilot Certificate (card).
